RESOLUTION OF ZONING ORDINANCE AMENDMENT RECOMMENDATION

WHEREAS, the Common Council of the City of Fort Wayne, Indiana, on April 28, 1970, referred a proposed zoning map amendment to the City Plan Commission which proposed ordinance was designated as Bill No. Z-70-04-31; and,

WHEREAS, the required notice of public hearing on such proposed ordinance has been published as required by law; and,

WHEREAS, the City Plan Commission conducted a public hearing on such proposed ordinance on May 18, 1970;

NOW THEREFORE, BE IT RESOLVED that the City Plan Commission does hereby recommend that such proposed ordinance DO PASS for the reasons that a need has been shown for the Land Use Plan to be amended, the amendment will be in the best interest of and benefit to the area involved and of and to the city, and the amendment will not be detrimental to and does not conflict with the overall city plan;

BE IT FURTHER RESOLVED that the Secretary is hereby directed to present a copy of this resolution to the Common Council at its next regular meeting.

This is to certify that the above is a true and exact copy of a resolution adopted at the meeting of the Fort Wayne City Plan Commission held August 24, 1970.

Certified and signed this 25th day of August 1970.

Re: Final Plan of Washtington Center Road
and U S. #27

Dear Mr. Jones:

Pursuant to your request of our clients, Mr. & Mrs. Eugene Yergens, I forward with this letter the original executed and notarized Dedication of Right-of-Way to be held in your files pending the final disposition of the rezoning and use of the southeast corner of Washington Center Road and U.S. #27.

Per our agreement, you are to hold the Dedication of Right-of-Way and record it only upon my instructions which will be given after final disposition of the pending lawsuit in the above matter.

If our clients are successful in the said lawsuit, and the final plans are approved, the Dedication of Right-of-Way should be recorded. If, for any reason, our clients are not able to effectively use the I-A symbol, you will return the Dedication to me.

Thank you for your cooperation.

Very truly yours,

In the Matter of Petition to Rezone Z-70-0431

MEMORANDUM

A question has been raised as to whether or not the Petition to Establish an I-A Symbol at the intersection of Washington Center Road and U. S. Highway 27 is timely. The applicable statute governing the "procedure in amending, supplementing and changing" zoning ordinances states as follows:

> Failure of the City Council or the Board of County Commissioners to pass such proposed ordinance by said affirmative vote within ninety (90) days after its rejection by the Plan Commission shall constitute rejection of the proposed ordinance and it shall not be reconsidered by the Planning Commission, City Council or County Commissioners until the expiration of one (1) year after the date or its original rejection by the Plan Commission. Acts 1947 Chap. 174 Sec. 64 page 571; 1961 Chap. 133 Sec. 1, page 288. Burns Ind. Stats. Ann. 53-765.

The statute unequivocally bars resubmission of a proposed change of a zoning ordinance for one (1) year after the date of the original rejection of the change by the Plan Commission.

The Plan Commission rejected the change by resolution on March 25, 1968; two (2) years prior to the present consideration.

The legislature adopted the above quoted amendment in 1961. If the legislature had intended that the one (1) year bar commenced with the date of rejection by the City Council or by the rendering of a decision by a court, the legislature would not have used the words "the original rejection by the Plan Commission." The entire paragraph read in context with the remainder of the amending procedure statute was clearly intended to prevent the City Council from not acting on an amendment, thereby not permitting a petitioner to resubmit the amendment to the Plan Commission's recommendations. The second sentence read in context with the first sentence of the above-mentioned paragraph establishes a definite period of time a petitioner must wait before resubmitting an amendment.

For the above reason, we submit that the one (1) year bar on resubmitting petitions for amendment to zoning ordinances commences from the date of the original rejection by the Plan Commission.

STAFF REPORT TO PLAN COMMISSION ON
BILL NO. Z-70-04-31 SOUTHEAST CORNER OF U. S. #27
AND WASHINGTON CENTER ROAD

At the regular meeting of the City Plan Commission on May 25, 1970, the above ordinance was returned to the Staff for further Staff study and recommendation. Since that time, Mr. Neu and myself have discussed this matter on several occasions. Following these discussions, Mr. Neu and myself still have a difference of opinion as to whether this ordinance should or should not pass. As a result we are jointly submitting our individual recommendations to the Commission for your review:

Mr. Neu recommends that the ordinance DO NOT PASS for the following reasons:

1. *Two development plans as interchange access plazas have been approved immediately west of this petitioned service plaza area. With these two service plazas and the large shopping complex to the south, there should be more than adequate facilities in this area.*

2. *A service plaza would impede the flow of traffic on Washington Center Road which is designated as a portion of the proposed Perimeter Parkway.*

3. *A service plaza would not only depreciate adjacent residential property values, but would cause the residents of Stratton Road to have to traverse adjacent to the service plaza to leave or reach their homes.*

4. *There has been no general change in the area nor in the intended uses to convince the Plan Commission that they made a mistake in recommending DO NOT PASS five (5) previous times.*

5. *This change, if granted, would be beneficial only to the petitioners while conflicting with the proposed Land Use Plan.*

6. *The present commercial zoning on the west side of U. S. #27 is a good place to provide a buffer for zoning.*

Mr. Jones recommends that the ordinance DO PASS for the following reasons:

1. *At the present time the front of the nine (9) lots face U. S. #27 and an existing commercial center; consequently, there are nine (9) residential uses subjected to a front exposure of commercial use. In the event this property would be rezoned the result would be three (3) residential lots subjected to a side exposure and only one (1) to a front exposure. Consequently, it appears that less adjacent residential lots would be directly affected and, therefore, this would be the proper place to terminate the commercial zone.*

2. *A majority of the people in this subdivision, by their own previous action, indicated that they do not object to commercial uses on these lots. A majority of the people in this subdivision did*

sign a waiver of the restrictive covenants, thereby allowing the commercial use of these lots under the terms of the plat restrictions.

3. An interchange access facility on the east side of U. S. #27 near the interchange of I-69 would be more convenient for the motorists proceeding north from Fort Wayne and entering I-69. This would avoid a series of left turns in using the two (2) service plazas on the west side of U. S. #27.

4. All of the improvements that would be made on public right-of-way as a result of the installation of the proposed commercial use would further provide for the safety and welfare of all citizens using this intersection. These improvements include enclosure of the ditch, widening of Washington Center Road, fencing and landscaping of the site in question.

5. There would be no more conflict in this instance with the Master Plan than there was when the Plan Commission recommended the other two (2) Interchange Access Districts on the west side of U.S. #27.

6. The proposed use of this property for commercial purposes does not conflict with the General Plan since the streets are adequate, water service is available, sewer lines are adjacent, there are no schools or parks near this site, there is adequate fire protection and since this is a proposed Interchange Access District, there is no conflict with the Shopping Center Plan.

Since the Staff could not agree on a joint recommendation, we are submitting both opinions to the members of the Plan Commission for their review and decision.

Gentlemen,

The property owners whose names appear below protest the recently submitted ordinance which would establish an Interstate Access Symbol at the corner of Washington Center Road and U.S. 27.

The intent of this ordinance again is to cause a commercial encroachment of the fine residential neighborhood south and east of this intersection.

Establishing this IA symbol can not be justified if based on proper city planning standards as set forth by the many statements through the years of the American Society of Planning Officials and the Indiana Planning Act of 1947.

We insist that our Constitutional and Civil Rights be protected. We will not be relegated to the status of second class citizens to satisfy the seemingly insatiable appetite of a commercial developer. Justice is not served by penalizing many for the benefit of a few.

We respectfully request that the recommendation of the City Plan Commission on this petition to establish an IA Symbol be Do Not Pass.

Fort Wayne, Indiana

Gentlemen,

The property owners whose names appear below protest the recently submitted ordinance which would establish an Interstate Access Symbol at the corner of Washington Center Road and U.S. 27.

The intent of this ordinance again is to cause a commercial encroachment of the fine residential neighborhood south and east of this intersection.

Establishing this IA symbol can not be justified if based on proper city planning standards as set forth by the many statements through the years of the American Society of Planning Officials and the Indiana Planning Act of 1947.

We insist that our Constitutional and Civil Rights be protected. We will not be relegated to the status of second class citizens to satisfy the seemingly insaitable appetite of a commercial developer. Justice is not served by penalizing many for the benefit of a few.

We respectfully request that the recommendation of the City Plan Commission on this petition to establish an IA Symbol be Do Not Pass.

Thank you

Re: Zoning Ordinance No. Z-70-04-31
Washington Center Road, U.S. 27
Interchange Access Symbol

Gentlemen:

On behalf of our clients, the property owners of the above-mentioned property, we hereby represent that the conditions established by the Plan Commission in granting an I-A symbol at the corner of Washington Center Road and U.S. Highway 27, shall be met.

The petitioners, property owners, have authorized us to assure the Plan Commission and the City Council that we will take the following steps to meet the requirements set down in the Do Pass recommendation:

1. The property owners, or their successors, shall replace the open ditch along Washington Center Road on the north side of the property with a culvert.

2. The property owners, or their successors, shall install screen planting along the east line of the subject properties.

3. A deed of dedication of 40 feet of right-of-way from the center line of Washington Center Road, together with a copy of this letter has been delivered to the Plan Commission, dedicating said right-of-way to the City of Fort Wayne, subject to the granting of the I-A symbol.

We trust this letter of compliance sufficiently meets your requirements.

Very truly yours,

ADAIR, PERRY, BEERS, McALISTER & MALLERS
